DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/18/2004 has been entered.

Allowable Subject Matter

1. Claims 45-47, 49-53, 55-59, 75-77 are allowed.
2. The following is an examiner's statement of reasons for allowance:

In reference to claims 45-47, 49-53, 55-59, 75, the examiner notes the claims as amended require a crucible with the fluoride material to be present. Additionally, the prior art (see apparatus description of Mizugaki US 6,123,764) does not disclose the sidewall degassing holes of the present invention in a crucible with a fluoride material. The Wanetzky patent (US 4,818,282) does not suggest the sidewall degassing holes and has no suggestion for a crucible containing fluoride precursor materials.

Cheredov's apparatus, although it contains fluorides, does not suggest the side wall degassing holes (see Fig. 1). Tokuhara (US 4,032,313) does not suggest the first stage positioned to cover an upper edge of a wall portion of a second stage.

In reference to claims 76-77, the closest prior art above does not suggest the claimed apparatus and therefor does not suggest using the apparatus in a crystal growth process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
